

"Spring Break" in BC

The Chilkoot Experience Wilderness Resort

4 days/ 3 nights Access by road, charter flight or schedule flight.

A luxury and breathtaking wilderness retreat located in the Chilkoot Valley where the Chilkoot Lake and the outflowing Chilkoot River surround you. This luxury wilderness lodge tailor makes each guest experience. Each of the 6 private and unique homes offer luxury and comfort in the wilderness.

The Chilkoot River is one of the few BC interiors with a salmon run. Bears will travel over 100 miles to reach these feeding grounds. Naturally, the salmon run brings with it hordes of bald eagles, making for spectacular wildlife viewing.

Highlights

- Bear Watching - The Chilkoot River is the host to over one million spawning Sockeye salmon each fall. This event attracts over 100 Grizzly bears into the valley to dine. The net result is that the Chilkoot Valley offers some of the best bear viewing in all of North America.
- Other activities offered at Chilkoot (some with supplement) - Helicopter hiking, guided hiking, fishing, white water rafting, guided horseback riding, Kayak, lake cruises, quad bike riding. Families are welcome at Chilkoot!

One of the greatest nature shows on earth is the annual migration of over 100 Grizzly bears to the mouth of the Chilkoot River to dine on one million spawning Sockeye Salmon. This migration brings optimal viewing conditions for our lucky guests.

Numerically more bears reside on the coast but are dispersed over such a large area that few concentrated masses like that which exist at Chilkoot can be found.

Out of salmon season, we are also graced with the presence of black bears, who roam the area from May until August.
