Day 3: 11 August 2022 – Kakadu National Park (B)

This morning we depart Darwin and travel through pristine wetland regions to Kakadu National Park. First stop Fogg Dam Conservation Reserve. These wetlands have international significance because of their beauty and natural ecosystems. A great variety of fauna can be found here throughout the year as well as a large variety of birdlife. Boardwalks take you through the different landscapes to observation platforms to view the large number of resident wading birds. From here we stop at the Famous Humpty Doo for lunch (own expense) – perhaps try our famous Trio Burger with Barra, Buffalo and Croc Burgers with fresh salad and chips. Next it onto the stunning Ubirr and view Aboriginal rock art dating back some 20,000 years. Take the short climb to lookout from the top of this rocky outcrop for superb views over the flood plains and escarpment country. Enter into Kakadu, a 20,000 square kilometre suite of landscapes varying from red-hued escarpments that shelter historic Aboriginal rock art dating back thousands of years to floodplains teeming with wildlife before our arrival at Cooida Lodge Kakadu.

Cooida Lodge Kakadu – a village style property located beneath a canopy of trees beside Yellow Water Billabong, home to world-renowned Yellow Water Cruises, where crocodiles and birds are seen on the flood plain amongst Paperbark, Pandanus and Fresh Water Mangroves. With its oasis style atmosphere, Cooida Lodge offers an inviting shaded swimming pool, bistro-style dining, bars, petrol station and a store that offers locally-made crafts as well as a wide range of essentials for touring.

Day 4: 12 August 2022 – Kakadu National Park (B)

We start our morning on a Yellow Waters Wetlands cruise. Yellow Waters billabong is located at the end of Jim Jim Creek, a tributary of the South Alligator River. This is the largest river system in Kakadu and contains extensive wetlands, including river channels, floodplains and backwater swamps. About one third of Australia's bird species are represented in Kakadu National Park, with at least 60 species found in these wetlands. There are also plenty of crocodiles in their natural habitat, and buffalo on the floodplains. Whistling Ducks and Magpie Geese are the most abundant. Eagles can be seen hovering searching for prey, and at times you will see distinctive Jabirus and may even get to see Brolgas dancing. We then visit the Warradjan Cultural Centre before continuing onto the ancient Aboriginal artwork at Nourlangie. Here you'll find some of the world's oldest and most impressive rock art, and

spectacular views of the Arnhem Land escarpment. Nourlangie is one reason why Kakadu is World Heritage-listed for outstanding cultural values. This famous site, with its stunning rock paintings, documents life in the region from 20,000 years ago to the first contact with European explorers. This 1.5 km walk invites you to take a visual journey through time to an outdoor cultural museum where paintings, shelters and artefacts present traditional ways of life from numerous epochs. Later this afternoon we arrive at the Mercure Kakadu Crocodile Hotel where we check in for two nights.
